## **VLADA CHIGIREVA, OLYMPIC CHAMPION, MASTER'S DEGREE STUDENT OF THE FACULTY**

Studying at this university was my dream, in which I believed deep in my heart, but I was worried about my level of training, so entering Moscow State University was already a conscious choice on my way.

In addition to the knowledge that we get during our training here, the most important thing that I can highlight in particular is the people who meet here!

I enjoy every day spent at Moscow State University, because we are taught here by the best teachers who have a huge experience, which they are happy to share, and my groupmates always come to each other's aid.

Therefore, I can say that studying at MSU is not just a pass to a better life, it is a stage of a better life!

## **NIKITA KRYUKOV, SECOND YEAR STUDENT OF A MASTER DEGREE PROGRAM**

Dear University applicants! I would like to share my impressions of studying at the faculty of Higher School of cultural policy and administration in humanities in Moscow State University with you. It is a sheer pleasure to study here! You get both theoretical and practical knowledge.

Professors are great! And the educational process is wonderfully guided by the Dean, Elena Vyacheslavovna Khalipova. We are waiting for you at our faculty for bachelor's and master's programs.

**Sincerely, Nikita Kryukov, Olympic champion  
in cross-country skiing.**

## ELENA ZAMOLODCHIKOVA, GRADUATE, POST-GRADUATE STUDENT, TWO-TIME OLYMPIC CHAMPION

**Studying at the faculty has opened up new opportunities** for me in my professional activities, I successfully apply my knowledge in the work of the Gymnastics Federation and in the activities of the Sambo-70 sports school. Knowledge of strategic management, sports management and marketing, as well as sports psychology helped to optimize a number of processes in the Federation and in sports schools.

**After completing my master's degree, being a coach, I decided to enter a post-graduate program** in order to deepen my knowledge and write a paper that will help young professionals like me to effectively build the management process in a sports organization.

**My studies have given me new friends, like-minded people, and future colleagues.** I would like to emphasize the rich cultural life of the faculty, the warm and friendly atmosphere.

**The management of the faculty, our Dean, Professor E. V. Khalipova and the Academic Advisor of the faculty, professor M. E. Shvydkoy** have always supported and directed our student initiatives and projects, which have now become important social projects not only for the faculty, but for the entire MSU.

# ARTEM SENDEROV, POST-GRADUATE STUDENT

**The faculty of "Higher School of cultural policy and administration in humanities"** offers students a wide range of directions in the field of management in sports, culture, as well as producer business. Depending on the chosen programs, you will be able to fully cover each direction during the period of training. Whatever each student chooses for himself, the mixture of classical University education with qualitative new approaches gives both theoretical professional knowledge base and a huge number of practical skills.

**There is a bridge** over the abyss of theory and practice that consists of an impressive number of hours of practical work for each student and the faculty pays much attention to this issue.

**Is it easy to learn here? Personal commitment, diversity of programs and professional teaching staff, of course, do their job.** "Higher School of cultural policy and administration in the humanities" is the faculty that you definitely need to pay attention to, you will not regret your choice.

## **DARIA SHADRINA GRADUATE, POST-GRADUATE STUDENT, EDITOR OF THE WEBSITE OF THE INTERNATIONAL CHEKHOV THEATRE FESTIVAL**

**The faculty of the Higher school of cultural policy and administration in humanities is the best thing** that can happen in the life of a young person who is aimed at success in life.

**During my time in master's and postgraduate studies,** I discovered a very important thing: we are those who we surround ourselves with. It is a great success to be among first-class teachers, whose experience cannot be overestimated, and students who are united by a reverent attitude to culture and a constant desire for personal and professional development.
